

## Helmi Vent

For 30 years, Helmi Vent has run artistic workshops; for 30 years, she has been tirelessly dedicated to establishing a profound connection between art and science; for 30 years, Helmi has thrown herself into developing and establishing LAB INTER ARTS internationally, and for 30 years she has also offered excellent instruction. Helmi Vent has been a professor at the Mozarteum University Salzburg since 1983 and the school bade a fond farewell to her in May 2013, honoring her for her role as an outstanding personality in the arts and university life. After 30 years of teaching, she has more than earned the "Ars docendi-Staatspreis für exzellente Lehre" (the "Ars Docendi State Award for Educational Excellence"). Helmi Vent always conveyed more than just knowledge to her students – she let them 'learn by doing', allowing their own, personal artistic experiences to reveal perspectives about their own actions and self-empowerment. The enthusiasm for her methods was enormous. Helmi's dedication, her international reputation, her artistic and scientific approach, her enthusiasm, her exuberance and her laughter will be sorely missed by all those whose focus is on science and the arts. Helmi, we wish you all the best for your many projects - because we know you will be anything but retired!
